supports anti-fungal, good body cleanse**

PAU D' ARCO

encourages strong immune response**

BLACK WALNUT HULLS

supports the elimination of candida yeast**

SIBERIAN ELEUTHERO

supports adrenal response to stress**

Could Candida overgrowth be the culprit behind your health problems?

Candida albicans yeast is common, normally living harmlessly in the gastrointestinal tract and genitourinary areas of the body. However, when immune response is reduced from repeated rounds of antibiotics, birth control pills or steroid drugs, a high sugar or refined carbohydrate diet, and a lifestyle short on rest, the body loses its intestinal balance. In these cases, Candida yeasts can multiply too rapidly, voraciously feeding on the excess sugars and carbohydrates in the digestive tract.

Do you have signs of Candida overgrowth? Two or more yes answers should alert you of a potential problem.

Do you have recurrent digestive problems, gas, bloating or flatulence?

Do you have a white coating on your tongue (thrush)? Do you crave sugar, bread, or alcoholic beverages?

Has your memory or concentration been noticeably poor lately?

If you are a woman, do you have PMS, chronic vaginal yeast infections or bladder infections?

If you are a man, do you have abdominal pains, prostatitis, or loss of sexual interest?

Have you recently taken repeated rounds of antibiotics or corticosteroid drugs?

Crystal Star Candida Balance™ is your best defense!

While diet and lifestyle changes are important for recovery, Candida Balance™ caps can help when symptoms are at their worst. Potent antifungals like sodium caprylate, olive leaf extract and pau d'arco in the formula help attack and reduce yeast overgrowth. Echinacea and white tea recharge immune response and help restore body strength. Rhodiola rosea and rosemary are included to help reduce candida-related brain fog and moodiness. Even irritable bowel can be helped as herbs like peppermint and thyme ease bloating and flatulence. Crystal Star Candida Balance™ is your best help to fight yeast overgrowth and help prevent relapses, even in stubborn cases.**

about the herbs

Olive Leaf extract (Olea europaea): a premier anti-fungal helpful for even stubborn cases of candida; a good overall body cleanser, especially helpful for infections.**

Siberian Eleuthero (Eleutherococcus senticosus): helps activate adrenal gland's response to stress; enhances immunity and improves mental clarity.**

Pau d'Arco (Tabebuia heptaphylla): a helpful antifungal with immune stimulating properties.**

Black Walnut Hulls (Juglans nigra): an anti-fungal that helps eliminate candida yeast. Mild laxative properties.**

Garlic (Allium sativum): helps cleanse candida yeasts in the vagina and intestinal tract.**

White Tea Leaf extract (Camellia sinensis): high in antioxidant polyphenols; a helpful gentle body cleanser and alkalizer.**

Amla Berry (Embliba offic.): a rich source of vitamin C for help with immune and adrenal gland support.**

Rhodiola (Rhodiola rosea): a serotonin balancer that helps improve mental focus and reduce mood swings.**

Cranberry extract (Vaccinium oxycoccos): helps eliminate yeasts; helpful for chronic urinary tract infections, common in candida sufferers.**

Echinacea blend: helps strengthen immune response and flushes the lymphatic system of toxins. — [(Echinacea angustifolia; Echinacea purpurea)]**

Seaweed blend: a source of organic iodine to support the thyroid gland, involved in most women's problems; a rich source of vitamins and minerals for help with body strength and stress relief. — [Bladderwrack (Fucus vesiculosus); Dulse (Rhodymenia palmata)]**

Rosemary (Rosmarinus off.): a circulatory stimulant that helps act as a catalyst in the formula; helps reduce mental fogginess related to yeast infections.**

Dandelion Root (Taraxacum off.): encourages toxin release by stimulating gallbladder, liver and kidney activity.**

Peppermint Leaf (Mentha piperita): an antimicrobial and inflammation response; a specific help for irritable bowel symptoms that accompany candida infections.**

Thyme (Thymus vulgaris): an antifungal that helps ease candida-related flatulence.

Grapefruit Seed (Citrus paradisi): a potent antifungal for help with candida yeast.**
